

Son of Hibachi®

OPERATING INSTRUCTIONS

1. Open **Son of Hibachi** making sure the handles are in proper position and locked.

2. Remove grills and spread a layer of charcoal into each charcoal tray. Add 3 or 4 pieces of charcoal in Ash Drawer.
Note: Adding small amount of paper in Ash Drawer will assist in quick start up.

3. Use Draft Slide Handle to insert the grills into the **LOWEST** slot of the grill holder bracket.
*Note: this will keep charcoal in place and allow for proper closure of **Son of Hibachi**.*

4. Pull Ash Drawer out $\frac{3}{4}$ of the way. Saturate charcoal with about 2 ounces of charcoal lighter fluid.
Note: no need to apply lighter fluid over charcoal in trays. This eliminates lighter fluid flavor in food.

5. Slide Ash Drawer in, leaving it open a thumbs width. Close **Son of Hibachi** & slide Draft Slide Handle on about 1 inch. Light charcoal lighter fluid in Ash Drawer to start **Son of Hibachi**.
